Traffic: Morning Drop-off Guidelines

The safety of all students is our guiding priority and the basis on which we have developed the guidelines below to streamline the traffic flow. We appreciate your adherence to the guidelines in order for traffic to flow as efficiently as possible.

SECONDARY

Student drivers and families dropping off students - enter and exit via 16th Avenue. This reduces the number of cars at the north end of campus. Please do not use the Performing Arts Center entrance.

ELEMENTARY

There are three options:

1) Main Traffic Circle
   1. Cars enter by the PAC
   2. Pull ALL THE WAY AROUND to the crosswalk by the administrator on duty. Please do not stop farther back in the circle.
   3. We will help your child get to the correct seating areas.

2) Top Parking Lot
   1. Enter through the chain link gate
   2. Drop students off at the end of the ramp by the Business Office
   3. Circle around to turn right out of the chain link gate

3) Park and Walk Students into School
   There is parking available in the top parking lot and on the band practice field. There is limited parking in the PAC parking lot, but these spaces fill up quickly, and you may get caught in the exiting traffic.

Please do NOT drop students off in the PAC parking lot or on the street.

The safety of your children is paramount to us. We want to make sure children are not disembarking in areas where cars may be moving, backing up, etc.

Please know we are working diligently to create systems that provide safety and efficiency within a limited space and time window. Your patience is greatly appreciated.
