Summer Opportunity Technology in Teaching

Join P.K. Yonge for a **one-day educator-hosted conference** highlighting work taking place on the P.K. Yonge campus. Our **blended learning and technology** initiatives are driven by **five tenets of student learning**.

At P.K. Yonge we believe students learn best when:

- they are **actively engaged** in the learning process through a variety of **meaningful activities** linking **new information to existing knowledge** and **accommodating different learning styles**.
- faculty and staff maintain **clear, consistent, high expectations for learning** and **students understand these expectations**.
- all stakeholders work together to provide a **safe, diverse, and respectful environment** in which all students have **equal opportunity to learn**.
- they are embedded in an **environment that reflects developments in the world** around them.
- learning in environments that promote **high levels of social interaction** with **peers and expert facilitators**.

June 7, 2018 10:00am-4:00pm

Sessions will focus on how we are **working to create dynamic and engaging learning environments** that **integrate various technologies** in support of our goals. Come and spend the day on P.K. Yonge's campus **participating in breakout sessions** hosted by P.K. Yonge practicing educators.

About P.K. Yonge DRS at the University of Florida

P.K. Yonge Developmental Research School is a public school affiliated with the University of Florida. The 1150 member K-12 student body is randomly selected to reflect the demographics of the student population of the state of Florida both ethnically and socio-economically. P.K. Yonge's mission is to design, test, and disseminate best practices in K-12 education through serving a diverse student community.
