Summer Institute Universal Design for Learning

Universal Design for Learning (UDL) is a teaching framework to guide the design of **flexible learning environments** to **support individual learning differences**; not one-size-fits-all solution but rather **flexible approaches** that can be **customized to scaffold and support learning**. At the core of UDL is the premise that often **the curriculum is disabled**. It is not flexible; it often poses barriers, and consequently prevents rather than supports optimal learning experiences.

P.K. Yonge DRS offers a **four-day summer institute** designed to **increase educator understanding of learner variability** and how **UDL** can help educators design flexible learning environments to **meet the needs of all learners**. This institute will provide teachers and administrators with learning opportunities that can **support system alignment**, from planning **core instruction** to designing **tiered interventions** that consider **students' individual needs**. Teachers, administrators, and educators in diverse roles in schools and districts are encouraged to join us for this opportunity.

June 11-14, 2018 9:00am-4:00pm

Jon Mundorf, Ed.D. is an award-winning **National Board Certified 7th grade English Language Arts Teacher** at P.K. Yonge. He consults with schools, school districts, universities both nationally and internationally and other organizations on topics such as inclusive **teacher pedagogy, accessibility, technology integration, practitioner research, school improvement**, and UDL. He is a member of the **Harvard Graduate School of Education's UDL Summer Institute** faculty and the **CAST UDL** faculty cadre.

About P.K. Yonge DRS at the University of Florida

P.K. Yonge Developmental Research School is a public school affiliated with the University of Florida. The 1150 member K-12 student body is randomly selected to reflect the demographics of the student population of the state of Florida both ethnically and socio-economically. P.K. Yonge's mission is to design, test, and disseminate best practices in K-12 education through serving a diverse student community.
