

Notification of Parents Right to Review and Object to Instructional / Library / Reading Materials

Developmental Research School
at the University of Florida

UF Lab School's process to receive and review objections to instructional materials recommended for adoption, as specified in ss. 1006.28 and 1006.283, *F.S. is as follows: If a parent has questions or objections regarding instructional materials proposed for adoption, please send an email detailing your objection to a specific curriculum to the Director of Program Development and Outreach| cgabbard@pky.ufl.edu. The Director of Program Development and Outreach will bring forward the questions/objections to the principal prior to making final decisions about instructional materials recommended for adoption.*

UF Lab School's process to object to materials made available in school libraries, as specified in s. 1006.28, *F.S. is as follows: If a parent has an objection regarding materials available in the school library, please see the Library/Media Center selection policy and Materials Consideration Request. This can be found at the PK Yonge Website, Academics>Library.*

UF Lab School's process for receiving parents' objections to materials included in course reading lists, as specified in s. 1006.28, *F.S. is as follows: Please use the Instructional Materials Consideration Request Process found on PK Yonge's Website Information>Policies/Publications.*

*The UF Lab School Director of of Program Development and Outreach is responsible for leading the review and adoption of new instructional materials. Parents will be notified when **public meetings are scheduled to discuss and select new instructional materials**, as specified in s.1006.283, *F.S. **Parents** have the right to participate in the **review of instructional materials. Parents interested in reviewing instructional materials to be considered for adoption may email the Director of Program Development and Outreach| cgabbard@pky.ufl.edu.****
