

Reproductive Health & Disease Education

Developmental Research School
at the University of Florida

UF Lab School parents are provided annual notification of their rights and the process in place for the parent or guardian to request an exemption from the teaching of reproductive health and disease education for their student (per s. 1003.42(3), *F.S.*) via email and paper copy sent home with student.

UF Lab School's website link to instructional materials approved by the school district to teach reproductive health and disease education (s. 1002.20 *F.S.*, as amended by HB 545):
