Parent Information and Resource Center

Parental Information and Resource Centers (PIRC) were established by the United States Department of Education in 1995 to provide parents/guardians, schools, and organizations with training information and technical assistance to understand how children develop and what they need to succeed in school.

Florida provides a number of resources for online family access.

Parent/Teacher Conference

Conferences are one of the most important ways parents/guardians and teachers can work together as a team. Conferences are a helpful way for parents/guardians to share information about their child's special interests. It is also a good time for discussing the child's academic progress and for ideas on how parents/guardians can best help their child at home. Student conferences are scheduled each fall with all K-5 families, and as needed with K-12 families. An interpreter is available upon request.
